

Day - 76

Task - 1: Create a Storage Account

The screenshot shows the Microsoft Azure portal interface for a storage account named 'demostoragerg'. The left sidebar contains a navigation menu with options like Overview, Activity log, Tags, Diagnose and solve problems, Access Control (IAM), Data migration, Events, Storage browser, Storage Mover, Partner solutions, Resource visualizer, and Data storage. The main content area displays the 'Essentials' section with a table of properties:

Property	Value
Resource group (move)	demo-rg
Location	eastasia
Subscription (move)	Azure for Students
Subscription ID	1713f309-616d-4a48-857a-27184b5f46ab
Disk state	Available
Performance	Standard
Replication	Locally-redundant storage (LRS)
Account kind	StorageV2 (general purpose v2)
Provisioning state	Succeeded
Created	07/04/2026, 11:29:00

Below the Essentials section, there are tabs for Properties, Monitoring, Capabilities (7), Recommendations (0), Tutorials, and Tools + SDKs. The 'Properties' tab is active, showing details for the Blob service (Hierarchical namespace: Disabled, Default access tier: Hot) and Security (Require secure transfer for REST API operations: Enabled).

The screenshot shows the Microsoft Azure portal interface for the 'Containers' page of the storage account 'demostoragerg'. The left sidebar is the same as the previous screenshot. The main content area displays a table of containers:

Name	Last modified	Anonymous access level	Lease state
slogs	07/04/2026, 11:29:28	Private	Available
democontainer-rg	07/04/2026, 11:31:06	Private	Available

At the top of the container list, there are buttons for '+ Add container', 'Upload', 'Refresh', 'Delete', 'Change access level', 'Restore containers', and 'Edit columns'. A search bar for containers is also present.
